ELECTRIC FANS

Produce this result. Nothing like them for the
sick room, the office, the shop, any place where
comfort is desired.

You can see them at work in many of the bus-
iness houses of the town.

The cost of operation is little more than an
ordinary incandescent lamp.

Western General Electric Co. Ltd.

W. A. MOORE, Managing Director.

The Summer Carnival

The great Nat. Reiss Carnival
Co. has come and gone, and the
town seems quiet without it.
Owing to cold weather there was
not so large a crowd from the
country as there otherwise would
have been, but the town people
turned out and crowded the
grounds every night. There
was no disorder, or sharp prac-
tice so far as we could see, every-
thing was fair and above board,
and the Woodmen of the World,
under whose auspices the show
was conducted, are to be con-
gratulated on the splendid order
maintained and the general
satisfaction the shows gave those
who patronized them. There was
instruction and amusement for
all. The children never tired of
the merry-go-round, and the
great ferris wheel was patronized
by young and old as a distinct
novelty. The glass blowers drew
large crowds, and was very in-
structive, and entertaining.
Dixie Land was most amusing
and the jolly crowd of darkies
kept the crowd laughing. The
Baby Incubator was a novelty
although some didn't believe in
it. Age, the flying sixty, was a
wonder, while the moving pic-
tures with regard to escape from
Sung Sing and the train wreckers
were quite startling and realistic.
The big circus was well pat-
ronized and the crowds were not
disappointed as the clowns were
clever, the trapeze acting first
class, especially the two young
lady performers, who gave
amazing exhibitions of tumbling
and clever performances requir-
ing strength and a clear head.
Altogether the show was a
success and the Woodmen, while
not making anything out of the
venture, are to be congratulated
on the cleanliness of the show.

Madame Wanda's trained dogs
were a feature, but Madame
herself was ill and her daughter
had to train the dogs, which she
did with great credit to herself.
The grounds were a blaze of
light from some four hundred
incandescent lamps, Mr. Reiss
claiming that the service given
by the Western General was the
best he had received anywhere
in the West.

The Late John Howard Keast.

John Howard Keast, eldest son
of Captain J. W. Keast, aged 19
years, died at the Memorial
Hospital on Thursday last after
an illness extending over several
months. The young man was
quite an athlete and popular with
the base ball and foot ball teams
of the district. Last April he

caught a severe cold while play-
ing a game of ball from which he
never thoroughly recovered,
inflammatory rheumatism setting
in followed by meningitis. He was
born in New Brunswick and
came to Red Deer with his par-
ents in 1900, and was his father's
right hand man on the farm and
a general favorite among the
young people with whom he came
in contact. The funeral took
place on Saturday afternoon last
from Stone's undertaking parlors
for the Red Deer cemetery, the
funeral service being conducted
by the Rev. B. Goodfield. Cap-
tain Keast, and the relatives
have the sincere sympathy of a
large circle of friends in their sad
bereavement.

Conservative Executive Meets.

A meeting of the executive of
the Red Deer Conservative asso-
ciation was held on Tuesday
evening last to make preparation
for the reception of Hon. R. L.
Borden on Oct. 7, and other busi-
ness in connection with organi-
zation. There was a full attend-
ance of members, with Dr. J.
Collison in the chair.

It was decided to secure the old
Massey Harris water tank for the
meeting if possible as it was the
largest available building in
town.

It was also decided to hold a
Conservative smoker at an early
date, of which further announce-
ment will be made next week.

The association will proceed at
once to organize for the purpose
of giving the Conservative
chieftain a warm welcome to Red
Deer and every effort will be
made to make the meeting a
success.

Sporting Notes.

A picked base-ball team paid
a visit to Olds on Monday last
and played a game with the crack
team of that town and came out
victorious by a score of 12-11.
This seems a pretty big score and
would indicate that there was
considerable loose ball, but when
it is understood that the diamond
had been recently ploughed up,
and the ground was very uneven
it may explain matters some.

The following players composed the
Red Deer team: catcher, P. L.
Richards; 1st base, Lund; 2nd
base, Peterson; 3rd base, Syer;
short stop, Mann; left field, H.
Handford; centre, Green; right
field, L. Handford; pitcher,
Porter; spare, Losse. Losse re-
placed L. Handford in the 4th
innings owing to a sprain. Olds
battery, Losse, Brown and
Hatcher.

15th. Light Horse

The first official inspection of
the rifles and accoutrements of
the Red Deer troop 15th Light
Horse took place Tuesday of last
week by Major McDonald, of
"D" Squadron and Captain Mc
Kie, District Ordinance Officer.
Everything was found in first
class order and a credit to Lieut-
enant Gogarty, the troop com-
mander. The proposed rifle
range on Lieut. Gogarty's ranch
was inspected and pronounced an
ideal place for a rifle range and
could be put in shape at small
cost. It is now the duty of the
Red Deer rifle association to or-
ganize and get things in shape
for a first class club here as we
have some good shots in town.

We understand the powers
that be are so well pleased with
Red Deer troop and the splendid
military spirit displayed by the
veterans that a squadron of
Light Horse is promised us for
next year.

Mayor Goes East.

A special meeting of the Town
Council was called for Thursday
evening last to discuss financial
matters. The finance committee
recommended that the Mayor
proceed at once to Toronto and
the East for the purpose of trying
to float the town bonds. The re-
port was adopted.

On Saturday Mayor Gogarty left
for the East in accordance with
the wish of the Council.

Cricket Matches.

The Edmonton cricket team
visited town on Saturday last and
played a friendly game with Red
Deer club at the exhibition
grounds. The home team was
not in the best of form, the vis-
itors putting up 157 runs to Red
Deer's 73.

On Monday the Edmonton
team visited Pine Lake and
played the stalwarts of the ranch
country. The score stood 151 to
101 in favor of Pine Lake at the
close, the home team maintaining
their supremacy as the "best
cricket team in Northern Alberta."

On Tuesday a scratch game
was played here the visitors
putting it all over Red Deer by
109 to 29. Five of Red Deer's
players were absent and the game
was a procession from the start.
The visitors were greatly pleased
with the splendid treatment they
received from the home team and
they promise to come again when
our team gets in shape for an-
other game.

Big Cattle Shipment.

Geissinger, Root, Reed and
Powne, the cattle men, who have
been buying in this district the
past week or two will make a
shipment of some four hundred
head of prime steers from Red
Deer on Saturday next to Chicago
the price paid for these cattle is
considerably higher than that
paid by other buyers. The ship-
ment will be the largest over-
shipped from this point and will
be watched with much interest
by the ranchers through this
part of the country. If success-
ful more will follow.

It seems strange that these
gentlemen can pay a higher price
for their cattle, pay a duty of 25
per cent and then make more
money out of the transaction
than they would if they sold in
Winnipeg. There is a screw
loose somewhere.

REDUCTION SALE

The Red Deer Store.

COMMENCING THURSDAY, AUGUST 1st.
FOR TWO WEEKS ONLY.

Horrible Calamity.

QUEBEC BRIDGE COLLAPSED

EIGHTY-FIVE LIVES LOST

Quebec, Aug. 29.—The great Quebec bridge collapsed late this afternoon and tonight's estimate places the loss of life at 85. The bridge fell at 6.30 this evening just as many of the workmen were preparing to leave. The accident was so terrible in its effectiveness in wiping out the lives of the men employed that very little is known as to the cause of the disaster.

There were 92 men working on the bridge and only 8 escaped. Of the other 84, sixteen have been taken from the water dead, and it is feared that the majority of the others have been either drowned or crushed by the falling girders.

GRANDS AND SHRIEKS. The horror of the situation is increased by the fact that there were a number of wounded pinned under the wreckage near the shore. Their groans and shrieks can be plainly heard by the crowd who have gathered at the water's edge, but nothing so far can be done to rescue them or relieve their sufferings. There are no searchlights available, and by the feeble light of lanterns it is impossible to even locate some of the sufferers.

A MIRACULOUS ESCAPE. Work was going on as usual, the men being employed in placing immense girders in position. For this work a track had been laid on the bridge, and an engine with freight cars and several heavy cranes were employed getting the steel into position.

The engine was seen to start out for the end of the bridge, and as it approached the end the first premonition of the disaster was felt by the engineer. His engine continued to move.

The outward end of the structure literally ducked a little, and a moment later collapsed. This much has been gathered from the engineer, who had a marvellous escape. He went down with his engine. How he escaped he does not know. He was picked up later by a boat and became unconscious. When he recovered his senses he knew but little beyond the fact that he felt the bridge going, and knew he was falling. When he returned to consciousness he was on shore. The rest of his crew are still in the river.

At the moment of the collapse a locomotive and nine carsload of iron had gone upon the bridge. They went down with the wreck. It is suspected that some hidden defect had developed. The men killed were mostly Americans in the employ of the Phoenix Bridge company of Phoenixville, Pa.

AN AWFUL PLUNGE. The survivors are so completely numbed by the disaster that they are unable to tell exactly how it happened. Those on shore say that the north end of the arch bent down a little and a moment later the whole enormous fabric began to stretch down slowly at first and with a great plunge which shrouded up the river and left only a blank where a moment before had been the beginning of the world's greatest bridge.

VILLAGES IN MOURNING. There is scarcely a family in the villages of St. Remond and New Liverpool which has not been bereaved, while in some cases five and six men of a single family have been killed. Driving through the village from almost every house the sound of lamentation is heard.

The bridge was about a mile and a half in length, and half of it from the south shore to mid-stream crumpled up and dropped into the water.

Ninety men were at work on this section of the structure, and the whistle had just blown at 5.30 for the men to quit work for the day, when there came a grinding sound from the bridge midstream. The men turned to see what had happened, and an instant later the cry went up "the bridge is falling!" The men made a rush shoreward, but the distance was too great for them to escape.

DROGON DOWN TO DEATH. The falling section of the bridge dragged others after it, the snapping girders and cables booming like a crash of artillery. Terror lent fleetness to the feet of the frightened workmen as they sped shorewards, but only a few of them reached safety before the last piece of ironwork on the south shore was dragged into the river.

Near the shore the wreckage of the bridge did not go below the surface of the water, and the workmen who remained above water were rescued and taken to the hospital at Lewis.

STEAMER TO THE RESCUE. The steamer Glenmount had just cleared the bridge when the first section went. The water

thrown up by the debris came clear over the bridge of the steamer. The captain at once lowered boats. The small boats piled back and forth over the sunken wreckage for half an hour, but there was no sign of life. The twisted iron and steel had its victims in a terrible death grip. A few floating timbers and the broken strands of the bridge toward the north shore were the only signs that anything unusual had happened.

All the men drowned were employees of the Phoenix Bridge Company and sub-contractors of Montreal.

At 10 o'clock to night 16 bodies had been picked up, and of the eight men in the Lewis hospital, two are not expected to live through the night.

Men working on the bridge say the disaster was caused by a tremendous strain on the anchor pier. Mr. Davis, the contractor denies this and asserts that it is still in perfect condition.

Later it will be determined whether the cause was defective designing or defective materials. It was either one or the other.

MANY OFFICIALS PERISH. Among the officials of the Phoenix Bridge company killed were B. A. Yousell, general manager, Mr. Burk chief engineer, and who had walked out on the bridge just before it collapsed, and two foremen, John Morely and Jim Idaho.

Ulric Barthe, secretary of the company, and a party of Montreal friends, had a close call. They had been inspecting the bridge, and had just left it when the collapse came. Many of the men killed were skilled mechanics brought from Pennsylvania by the contractors.

The Quebec bridge was remarkable in that it was said to be the longest single span cantilever bridge in the world, the length of the span in the centre being a hundred or two hundred feet longer than that of the Fifth of North bridge, at present the world's largest single span bridge.

CITY AND DOMINION.

There is no bridge across the St. Lawrence below Montreal. At Quebec all traffic has to be ferried across the river. This expense being considerable, necessary to enable the city to grow, a number of the leading citizens secured a charter from the Dominion government to build a bridge across the St. Lawrence. A subsidy of a million dollars was secured from the Dominion government, and another of \$350,000 from the government of the province of Quebec, while the city of Quebec gave a grant of \$300,000. In addition the promoters put up \$65,000 of their own money.

The contract was let for the erection of the stone work to M. P. Davis and company, and for the iron work to the Phoenix Bridge company of Phoenixville Pa.

Work was begun in 1900. The original estimate was in the neighborhood of \$3,500,000 but this was speedily found to be small. The company finding it self in difficulties and the government requiring the bridge for the National Transcontinental railway an agreement was come to by which the government agreed to guarantee the company up to \$7,000,000. Under this agreement construction has been steadily progressing.

There are to be two approach spans to the bridge of 220 feet each, two anchor spans of 500 ft. each, and a centre span of 1,800 feet from centre to centre of the piers. The under side of the bridge is to be 150 feet above the water. When completed the bridge is to have accommodation for a double track railway, two lines for electric tramway, and two roadways for foot and vehicular traffic.

Ottawa Coal men in Trouble.

A movement has been engineered to have the coal merchants of Ottawa indicted before the grand jury at the fall assizes. Coal has risen during the last two weeks from \$7.25 to \$7.75 per ton, and a "coal combine" is alleged. The matter is now in legal hands and advice is awaited as to whether the advance made unanimously by the dealers comes within the scope of the clauses of the criminal code prohibiting combinations in restraint of trade.

Imported coal in Red Deer has advanced more than a ton and some people are glad to get it at that. And this is a coal country yet there is no talk of a combine or anything of that sort in Alberta. The fact of the matter is the people of the west get so accustomed to paying such exorbitant prices for everything that they do not kick as much as they should at high prices.

WEDNESDAY, SEPT. 4th, 1907.

THE NEW MINISTERS.

Sir Wilfrid Laurier has at last
announced his intention with re-
gard to the cabinet ministers.
Mr. George P. Graham, the pre-
sent leader of the opposition in
the Ontario legislature, takes the
portfolio of public works vacated by
Hon. C. S. Hyman. While
Mr. Emmerson is succeeded as a
minister of railways by Dr.
Pugsley.

Mr. Graham has of course, no
seat in the house, neither for
that matter has Dr. Pugsley.
Both are graduates from the
provincial school of politics. But
from this point of view, the ap-
pointment of the former is much
more remarkable than that of the
latter. It amounts to a declara-
tion by Sir Wilfrid Laurier that,
in the great province of Ontario,
not one solitary elected member
is capable of filling a cabinet
position. That is not exactly a
compliment to men like Archibald
Campbell, Hon. R. F. Sutherland
W. S. Calvert, Hugh Guthrie, or
others who could be mentioned
and is likely to cause some justifi-
able resentment.

For some time back the inclusion
of Dr. Pugsley has been regarded
as inevitable, although the best
opinion in his own party regards
him with coldness and suspicion.
He is emphatically the politician
as opposed to the statesman.
Still, he cannot do much to lower
the tone of the cabinet. It has
long since deteriorated. If not
below, at least to his level, and
he is certainly to be credited
with some brains and activity.

MONEY LOANED ON THE OUT- SIDE.

SUM AGGREGATED \$31,000,000

In view of the discussion that has
risen over the large amount of money
Canadian Banks loan outside of this
country, it is interesting to see that the
last Canadian Bank statement, out
recently, places the total of outside
loans at \$31,332,000 the bulk of which
is in the shape of call money.
The detailed statement of outside
loans is as follows:

	Call Loans	Current Loans
Montreal	\$31,728,910	\$7,710,320
Nova Scotia	5,733,300	3,003,934
British N. A.	5,012,933	3,400,550
Toronto	300,000	1,000,000
Union of Halifax		502,253
Merchants	4,639,022	1,180,432

Some of the critics of the banks say
they see the full force of the argument
that "quick reserves" in New York are
necessary, but they claim that if \$10,
000,000 or even only \$5,000,000 were
withdrawn and brought back to
Canada it would help our conditions
not a little.

PROFIT IN PORK PACKING.

The Dominion Department of
Agriculture, as well as the
Department of Agriculture of
Ontario, have been carrying on
for some time now, a large number
of experiments for the purpose
of demonstrating as early as
possible the cost of producing
bacon hogs. One of the most
elaborate of these experiments
was that carried on last year by
Prof. Day, with the co-operation
of nearly half a score of farmers
in different parts of Ontario.
The results of this and some
other experiments have been re-
ported at the Winter Fairs at
Georgetown, and on such occasions a
demand has more than once been
made on behalf of the farmers
that the packers be asked to show
up the cost of transporting these
hogs into bacon. But this de-
mand a reasonable one under the
circumstances has fallen on deaf
ears.

While however, the packers
have refused to voluntarily place
their figures before a farmers'
gathering some facts which serve
the same purpose we have brought
out in an action recently tried in
this city. The action was for the
purpose of determining the allow-

ment and price to be paid for
certain shares in the Wm. Davies
Co. In connection with this trial
a table was exhibited showing the
dividends which stock in the
company has paid during the last
thirteen years. In only one year
has this dividend gone as low as
15 per cent that was in 1903. In
'08 the year in which the packers
arbitrarily dropped hog prices in
the autumn without any acce-
sponding decline in the old
country bacon market, the di-
vidends went up to 120 per cent.

The exact dividends paid on
Davies' stock for the last thirteen
years is as follows:
For the year ending March 31
1903, 65 per cent.
1904, 24 per cent.
1905, 40 per cent.
1906, 45 per cent.
1907, 100 per cent.
1908, 120 per cent.
1909, 82 per cent.
1900, 60 per cent.
1901, 27 per cent.
1902, 30 per cent.
1903, 30 per cent.
1904, 41 per cent.
1905, 41 per cent.
1906, 25 per cent.

That the stock is still a good
investment is further shown by
the fact that J. W. Flavell,
managing director paid \$400 per
share for stock with a face value
of \$100, during the past year.
In view of these facts packers
will have serious difficulty in any
attempt to convince farmers
hereafter that they are always
paying more for hogs than con-
ditions warrant.

The R. N. W. M. P. of Calgary
made a raid on disorderly houses
in that city on Thursday last and
arrested some twenty five inmates
nearly all being negroes and
Japanese girls. The News, in
speaking of the action of the
attorney general in issuing in-
structions for the raid says:

"It appears somewhat strange
that such a decided discrimination
is being made by the government
who are no doubt attempting to
eradicate this evil, but confining
their attention to the foreign
element."

STRATHCONA CHRONICLE CRITICISES.

The Chronicle has not hereto-
fore found it necessary to severely
criticise the policy or the actions
of the Alberta Government, but
there is one matter that it should
take in hand and remedy at the
earliest hour.

Through its desire to place a
monopoly of the government
printing in the hands of the
Bulletin, and that establishment's
inability to get the work out ex-
pediently, a serious delay in
the printing of official matter
results.

The legal fraternity is the worst
sufferer so far. The statutes of
the province should be in every
lawyer's hands. Not long since
a leading barrister complained
that he had prepared his case at
considerable labor only to find
that an act of the last session of
the legislature has repealed the
ordinance and he had his trouble
all for nothing.

The public should not be put to
inconvenience because of favor-
itism shown any firm. The work
could have been divided up with-
out any of it falling into the
hands of opposition houses.

Political economists who pro-
fess to know tell us that the
capital accumulations of the
civilized world have become
exhausted, and that a period of
repopulation is now due in order
that the depleted treasures may
be replenished.

That may apply to other
countries but it isn't so with re-
gard to Canada if the statement
that Canadian Banks have with-
drawn seven or eight million dol-
lars from the home market to re-
invest in the United States be
true. And we haven't seen it
denied.

If our surplus cash is being
sent out of the country simply
because a much higher revenue
can be derived from the money
across the border no doubt hard
times will result here, and the
banks will only have themselves
to blame for the depression.

NEW GUNS!

FOR the information of those who cannot visit our store, we here-
with describe some of our Guns. We have never had as varied
an assortment as we have this year, and we believe our values
are better than ever. We direct your special attention to our
Cannon Breech Single Barrel Gun and to our \$20 line of Stevens' Double
Barrel Guns. We have been selling shot guns a good many years, but
never saw as good value as these before. Order by number.

SINGLE BARREL HAM- MER GUNS

No. 7—Blue steel barrels, blue case, 12 gauge, 30 inch barrels. Price... \$8.50

Cannon Breech

No. 90—Special electro steel barrel, choke bored for smokeless powder, drop-forged, case-hardened frames, vaquined walnut stock with metal joint, rubber butt plate, 12 ga. Price... \$12

No. 90 E—Same as above, with automatic shell ejector. Price... \$12.50

DOUBLE BARREL HAM- MER GUNS

No. 101 F—Steel barrels, oiled stock, pistol grip and fore-end checked, back action rebounding locks, top lever, steel butt plate, matted rib, circular hammer, left barrel choke bored, 12 gauge only, 30 inch barrels, 7 1/2 lbs. Price... \$10

No. 430—Machine made, laminated pattern barrels, imitation reinforced breech, bar rebounding locks, extension rib, solid plungers, rolled shoulders, polished walnut stock with pistol grip, grip checked, steel butt plate, patent fore-end, 12 gauge. Price... \$12.50

No. 121—Fine blued steel barrels, oiled walnut stock, pistol grip and patent fore-end checked, rubber butt plate, matted extension rib, bar locks, circular hammers, no engraving, left barrel choke bored, right barrel modified, top snap. This gun is well finished throughout. 12 gauge only, 30 inch barrels, 7 1/2 lbs. Price... \$15

No. 125—Boston Damascus barrels, matted rib with Greener cross bolt, oiled walnut stock, pistol grip and fore-end checked, rubber butt plate, bar locks, circular hammers, nicely engraved, left barrel modified, top snap. This gun is well finished throughout. 12 gauge only, 30 inch barrels, 7 1/2 lbs. Price... \$16.50

STEVENS'

**Machine Made Throughout
All parts Interchangeable.**

No. 225—Specially prepared high pressure, steel barrels, choke bored for smokeless powder, matted extension rib, reinforced breech, frame and parts drop forged, varnished walnut stock with pistol

grip, patent fore-end, checked, top snap, low circular hammers, rebounding locks. The frame and action is a radical departure from old style pattern, the main spring being spiral and working on plungers which are set in the frame directly in front of the hammer—thus insuring a smooth, easy and positive action. 12 gauge, 30 inch barrels, weight about \$115. Price... \$20

OTHER MAKES

No. 120—Rebounding locks, new style low circular hammers, matted extension rib, double bolt, solid strikers, Deley and Edge fore-end, checked grip and fore-end, rubber butt-plate, both barrels choke bored, decarbonized steel barrels, selected walnut stocks. Price... \$25

No. 700—Genuine twist barrels, matted extension rib, double grip, English walnut stock, pistol grip and fore-end checked, good bar locks, rounded hammers engraved, top lever. A genuine English gun, specially adapted to hard usage. 12 gauge only, 30 inch barrels, 7 1/2 lbs. Price... 26.50

DOUBLE BARREL HAM- MERLESS GUNS

No. 30323—Blued steel barrels, left barrel choke bored, matted extension rib, polished walnut pistol grip stock, patent fore-end. 12 gauge 30 inch barrel—only in paper parcel, 7 lbs. weight. Price... 25

STEVENS'

No. 230—Special smokeless steel barrels, choke-bored for smokeless powder, matted extension rib, frame and parts drop forged, reinforced breech, top snap, triple bolt, low circular hammer, rebounding bar locks with steel parts, solid plungers, finely finished varnished walnut stock with pistol grip, checked and rubber capped, rubber butt plate, patent snap fore-end, checked. 12 and 16 gauge, 30 inch barrels. Price... 31.50

ITHACA FIELD GUN

No. 330—Smokeless powder steel barrels, with a double thick Nitro breech and narrow, matted, tapering, skeleton rib, cross bolt through extension rib, besides the solid under fastening, reinforced frame, walnut stock, and fore-end nicely hand checked, half pistol grip, rubber butt plate, 12 gauge. Price... 35.00

Quality V. H. Parker Bros. celebrated Vulcan steel barrels, American walnut stock, checked and engraved, pistol grip, hard rubber butt, drop forged, varnished walnut stock with pistol

Our lines of Hunters' Supplies are very complete, and we should be glad to hear from anyone wanting Specialties. All orders filled same day as received.

Smith & Gaetz THE HARDWARE PEOPLE.

WOODLANDS SURVEY NOW COMPLETED.

IN 5 ACRE LOTS. Close to Town.

Large Lots, giving plenty of land to keep cow, poultry, and for large garden.

(Joining the well-known and progressive 5 acre sub-division of Fairview Park where Rev. Father Voisin has purchased fifteen acres for convent, school and hospital.)

A splendid piece of property, a few minutes walk from town. Park-like land, groves of trees, stretches of rich, green meadow.

Desirable Place For Suburban Residences.

Rich fertile soil, black loam, ideal location for market gardeners and poultry fanciers. All who purchased in Fairview have done well. This, in many ways is a much better opportunity, and will enhance in value more quickly.

GET IN ON THE GROUND FLOOR.

Prices from \$75.00 per acre. Terms: One-third down; one-third in 12 and 24 months.

Inspection invited. We will have much pleasure in showing anyone over this property.

Stent & Ray,
Proprietors.

Greene & Payne,
Agents and Trustees.

While the Quebec mob which stoned Messrs. Bourassa and Lavergne is in Limerick, it must not be forgotten that that faction is a reflection of the mind of its leader.

No politician is more bitter than Sir Wilfrid in his treatment of men who cannot see eye to eye with him or who refuse to bend the knee to him.

Mr. Lavergne was openly abused by him because he went with a reputation from his country asking for some small public work. Did the people not know that Mr. Lavergne was not fit for the sacred presence owing to the independence of his views? Were they not aware that no favors for which Mr. Lavergne asked could be given?

L. R. Richardson had a similar experience. Sir Wilfrid rested not until he had also assassinated Mr. Richardson, who had dared to think for himself. Hon. George E. Foster, strong in his independence, was foully attacked in his private reputation by the agents of Sir Wilfrid, and at the expense of the public treasury.

It was an attempt to do away with an opponent. Mr. Borden was struck below the belt in Halifax. There is no which desire to elect him. The stone throwers were, after all, not much worse than their leader. Mail and Empire.

PRINCE RUPERT.

The Empire, the new paper printed at Prince Rupert, B. C., says in the first issue: "Prince Rupert is a town in name only. While there is a postoffice and a customs house, with duly appointed officials in charge, the town is in the postoffice and the customs house stand, as well as the land on which all other buildings and tents in the town stand, is owned by the Grand Trunk Pacific Railway. None of the land has been subdivided into blocks and lots, and no person has been allowed to locate on any of it without first having obtained permission from the general manager of the Grand Trunk Pacific through an executive agent on the ground; and as far as the Empire can ascertain, this is the only way in which any person can locate and carry on business in Prince Rupert."

Horn Hill.

Dan Code was in town Saturday. A fine new bell has been placed on the school house.

The roads into town should receive more attention than they do. W. Bond who was taken to the Red Deer hospital some time ago with fever is doing as well as could be expected.

Geo. Quinton, the old reliable cream gatherer, says this year will not begin to come up to last year for quantity of cream.

Penhold.

Rev. R. West, formerly of Penhold, who has been in charge of the Methodist appointment at Spring Lake, Strome and Pleasanton, has resigned the position and will move to Olds, his former home, next week. A farewell gathering was held Thursday evening at the home of Mrs. I. Vanidout, Spring Lake, when a goodly number of the parishioners assembled to express their appreciation of the work done by Mr. and Mrs. West while among them, and to wish them every happiness in their future home.—Daysland Press.

The rifle club is very quiet just now as all the members are busy with the crops.

Mare Lost.

Big bay mare with small white star on forehead. One of front hoofs broken right around, she had a halter on when she was lost and is branded on shoulder with arrow head pointing upwards. A suitable reward will be paid for information leading to her recovery or on bringing her to H. ASMUNDSON, Red Deer.

Farm property a specialty

The Dethronement of Douglas.

By JANE INGRAMMAN.

Copyright, 1917, by M. C. Canham.

Harriet Withrop belonged to the class of girls who bow to physical strength in the opposite sex. Frail, almost flowerlike in her beauty, the sort of girl who had been protected and served all her life, she yet decorated her tiny morning room with etchings and small statues of classic heroes famed for their physical prowess, and she could sit through a veritable blitzard to watch a football match and shout herself hoarse for Ted's college team.

Ted was her brother, and he said that somewhere in Harriet's makeup was a strain from the blood of an ancestral bear. Ted, who had dared to think for himself. Hon. George E. Foster, strong in his independence, was foully attacked in his private reputation by the agents of Sir Wilfrid, and at the expense of the public treasury. It was an attempt to do away with an opponent. Mr. Borden was struck below the belt in Halifax. There is no which desire to elect him. forlorn, a messenger brought her a most amazing note. It was from Jerry Douglas, and it contained a little supper he was giving at the Empire restaurant in honor of his promotion. It would be served on the upper floor of the restaurant at Thursday midnight, after the rush was over, and would she please come, because Mrs. Ned Landers had agreed to come. Jerry Douglas, one knew that Mrs. Ned was a host in herself.

There was a perfectly legitimate avenue of inquiry which even the Winthrop pride might not hesitate to follow, so she bathed her eyes, summoned the Winthrop brougham and drove to Mrs. Ned Landers' smart studio apartment. Of course she could not accept the invitation, and she would not decline without making inquiries. Mrs. Landers, shrewdly reading from the white, tired face that something had gone amiss, made tea directly, and Harriet slipped it appreciatively.

"You know, mother is a bit old-fashioned."

HE WON HIS CASE.

An Incident That Illustrates the Character of the Defendant.

A number of years ago General Benjamin F. Butler was a guest of friends in Brooklyn. During his visit he noted the rules of the street railway company compelling conductors to register fares as soon as passengers entered the cars and before the fares were actually collected. Two or three years afterward he represented the plaintiff in a damage suit for \$15,000 in which a Brooklyn street railway company was the defendant. The principal witness for the company was the conductor of the car on which the accident occurred, and his testimony was so strong as to make things look bad for Butler's client. But Butler recalled the unusual rule he had remarked years before, and on cross examination he said:

"Your company requires you to ring up fares as soon as passengers enter the car, doesn't it?"

"Yes."

"Suppose a passenger boards your car and then finds he is on the wrong line. Do you state that fact to your superior, and do they make allowance for your return for that fare?"

"No. I lose the nickel."

"Do you mean to say the company won't take your word for 5 cents?"

"No, they won't."

"Yet," said the shrewd witness, turning to the jury, "this company asks you to take this conductor's word for \$15,000."

DAILY EXERCISING.

To Keep the Body Symmetrical Take a Few Minutes Night and Morning.

To keep the body symmetrical take a few minutes night and morning for exercise. Study to find out what is required to develop the parts of the body that are out of line, and then do all orders entrusted to her will have prompt and careful attention.

It is not necessary to go to a gymnasium, this or to have complicated apparatus. Practice deep breathing exercises for the circulation and to develop the chest and lungs. Inhale slowly and to the full capacity of the lungs, hold the breath for a few seconds and then as slowly exhale the breath.

At first one gets dizzy, but it will grow easier. One should do it a dozen times night and morning. Resistance exercises are admirable.

Push up against imaginary resistance with both arms, raising them straight as far as possible above the head, gradually rising on the feet until standing on the toes, the body stretched upward as far as it is possible, then return gradually to the position of standing with the hands close to the sides of the body.

Afterward push directly forward in the same manner and then downward, to exercise the trunk muscles lie on the back upon a rug on the floor; then raise the body to a sitting posture, pushing forward with both hands. In all these exercises the hands should be tightly clinched into fists, which will stiffen and exercise the muscles of the arms.

While lying on the floor push the feet up, holding the legs straight and as close together as possible. Bring the feet up as if pushing a great weight.

As soon as these exercises are learned and can be done with ease they should be practiced a given number of times a night and morning by those whose bodies need developing and whose occupation keeps them from taking a required amount of exercise.

As soon as these exercises are learned and can be done with ease they should be practiced a given number of times a night and morning by those whose bodies need developing and whose occupation keeps them from taking a required amount of exercise.

Farmers, this should interest you!

We have just received a car of Binder Twine,
from the Farmers Binder Twine Co. at Brantford,
consisting of Red Star and Special Manila, which we are offering
at prices as low as the lowest, terms and quality considered.
We are not making any short date offer on our
twine, our prices are for the season. We guarantee
every Ball and should you be hauled out or any accident
happen to your crop causing you not to need it we will
cancel your order. What fairer proposition could you
want? You are not asked to make any payment on it
when placing your order, you therefore are not taking any
chances on having to carry any surplus twine. So call
or send us an estimate of the twine you will require and
we will lay it aside for you. We have the twine and you
need it and our prices are right, so why not deal? We
are always pleased to show our stock and quote you
prices when you call.

Remember the place. Just behind the Post-
Office.

OFFICE: Opposite Post Office.

To Derange The Tour
of Mr. R. L. Borden.

CORRUPTIONIST DODGE TO
SPOIL THE TOUR WHICH
THE CONSERVATIVE
LEADER HAS
ARRANGED.

Ottawa, August 20.—The applica-
tion of the liberal member in
Nova Scotia to have the Halifax
election case against Mr. Borden
proceeded with on September 3rd,
is an interesting move, because
on September 3rd, Mr. Borden
will be on his tour among the
people, and the opening of the
trial will necessitate a break in
the journey, and the postponement
of many of the meetings.
As Mr. Borden proposed that
the trial should go on in August
instead of September, the ob-
jection to the litigation at the
date fixed is not dictated by any
fear of the result of the trial. The
objection is solely to the date,
which has been selected by the
liberal machine because it inter-
feres with Mr. Borden's pro-
gramme.

To many people the trial of the
election petition against Mr.
Borden in respect of his contest
in Halifax, where he was not
elected, must appear to be a
strange proceeding. If the seat
were not won by the candidate,
how can the other side enter a
petition? But they have a novel
way of doing business in Nova
Scotia in so far as the election
petitions are concerned.

In Pictou county, Mr. Bell, one
of the ablest of the Conservative
leaders, was defeated at the gen-
eral election by a candidate
named Macdonald. That Mac-
donald was elected by corruption,
as Mr. Fielding was proven to
have been, was believed, and was
charged. The result of the peti-
tion against Macdonald was the
entering of a counter-petition
against the petitioner, who had
taken action against Macdonald.

An effort was then made on be-
half of Macdonald to have the
counter-petition tried first. This
petitioner claimed, under a read-
ing of the law, which was new to
experts in election matters, that
if he could prove the petitioner
to have been guilty of a breach
of the law, he would be exempt
from trial, and would be en-
titled to hold the seat, no mat-
ter how elected. The contention
was presented to the courts, and
was actually upheld.

Thereupon the trial of the peti-
tioner was proceeded with. It
happened that the petitioner died
before the case came up. Never-
theless, the trial of the dead man
was proceeded with, and a wit-
ness who could not be contra-
dicted, because the only man who
could answer was no more, swore
that the dead man had hired a
carriage for election purposes
contrary to law. The court found
the dead man was guilty. As a
consequence, the petition against
Macdonald fell through, and that
petitioner held the seat which he
is said to have secured by cor-
ruption, without any further
question.

Mr. Borden was defeated in
Halifax by bribery, if not by
other operations equally unlaw-
ful. The politicians for whom
the seat is said to have been
bought, Messrs. Roche and
Carney, have been dodging the
courts by all sorts of manoeuvres
and appeals, and have been en-
abled by this trickery to hold the
places they are charged with
having improperly secured.
Their trial has been fixed for
September. They are now ap-
pealing to the supreme court to
have their case set aside on the
ground that it is too late to go on
with it, the time limit having expired.

At the same time they are ask-
ing the courts to go on with the
counter-case. If they can prove
that some agent of Mr. Borden
hired a carriage contrary to law,
they will claim the right to hold
the corruptly-acquired seats
without trial. Mr. Borden does
not mind a trial, unjust though
it be; but he does object to the
interference with the plans which
he made known long ago.

\$5.00 BOUNTY ON WOLVES.

At the last session of the legisla-
ture the sum of \$2,500 was
placed in the estimates of the
department of agriculture to be
expended for the destruction of
wolves and coyotes according to
regulations to be set forth by a
special order in council. The
regulations are published as follows:—

1. For the purpose of these
regulations the term "prairie
wolf" shall mean the coyote or
brush wolf, "timber wolf" shall
mean the large wolf known as the
grey wolf, and "wolf pup" shall
mean the immature young of the
prairie or timber wolf up to the
first of August in any year.

2. The bounty upon prairie
wolves shall be one dollar per
head.

3. The bounty upon timber
wolves shall be five dollars per
head.

4. The bounty upon wolf pups
shall be one dollar per head.
5. For the purpose of these
rules and regulations the stock
inspectors appointed under the
provisions of the Stock Inspection
Ordinance shall be wolf bounty
inspectors.

6. The pet, including the head
of each wolf upon which bounty
is claimed must be produced in-
fact to the inspector by the per-
son claiming the bounty, he shall
furnish the inspector with an
affidavit to the effect that the
animal upon which bounty is
claimed has been killed inside
the province north of township
28 and south of the 55th parallel
of latitude.

7. Upon the production to him
of the pet of any wolf, the in-
spector shall split both ears from
tip to base.

10. No bounty shall be paid
under these regulations on any
wolf killed prior to the first day
of July, 1907.

Copies of these regulations are
being distributed by the minister
of agriculture and may be ob-
tained by applying to the de-
partment of agriculture, Edmon-
ton.

North of latitude 55 a special
bounty of \$10 for timber wolves
is given.

THE LUMBER COMBINE.

Preliminary Hearing.

Mr. Sydney B. Woods, deputy
attorney-general, for Alberta,
will act as counsel for the Crown
in the prosecution of the members
of the executive of the Alberta
Retail Lumbermen's association.
Mr. James Short, K. C., of
Calgary, will be assistant counsel.
The preliminary hearing will be
held before Inspector Worsley,
to-morrow September 5.

STORK CAME ANNUALLY

COUPLE MARRIED TWENTY
YEARS HAVE TWENTY
CHILDREN.

Sioux City, Iowa, Aug. 27.—
South Dakota lays claim to the
honor of being the home of one of
the largest families in the United
States, that of Mr. and Mrs.
Michael Hoffman, who live on a
farm in Brookline county.

Nineteen members of this re-
markable family are still living.
The father died only a few days
ago, and two children are dead.
Mr. and Mrs. Hoffman were
also fortunate in their financial
affairs and accumulated a large
amount of property. One inter-
esting feature is that the stork
brought the children one at a
time and that, during the Hoff-
man's twenty years of married
life a child arrived every year.

FOUR THOUSAND FOR WEST.

Big bunch of Exourionists leave
Toronto on Seven Special
Trains.

Toronto Aug. 28.—Four
thousand people left Toronto for
the west yesterday on two
excursionist homeseekers and farm
laborers, carried in seven trains.
While the number is among the
largest that ever left the city in a
single day, railway officials state
that fewer laborers than usual
will leave Ontario this year.

THEY LIKE THE COUNTRY.

Calgary August 27.—A dele-
gation of farmers from Iowa,
Nebraska, Illinois and Minnesota
arrived here on Saturday and
were taken out to-day to the
irrigation lands east of the city.
They were so pleased with the
country that they have purchased
over 8,000 acres.

Correspondence.

We do not hold ourselves responsible for the
opinion of our correspondents.—Editor of News.

To the Editor of the News:
I see by your paper of the 21st
a reference made to the unsettled
accounts of the Red Deer Court
House and as too much publicity
can not be given to such scandal-
ous allegations I would crave the
privilege of a small space in your
paper to show that there are
more than the government
officials at Ottawa responsible
for this neglect. I contend that it
is easily within the powers of the
reform association at Red Deer,
of which there are two parties both
contending to be liberals and
interest only nothing to the
interest of themselves. I
claim that there are other
charges against the branch of
which Mr. W. Smith is President.
In the first place his association
was called upon to recommend
an inspector of works and any
one who knows anything
knows that at the final
completion of any large job the
inspector can do a great deal
towards a speedy and amicable
settlement. I don't want anyone
to think that this young man who
got the appointment as inspector
has done anything out of any
bad intention only out of igno-
rance and want of knowledge and
if the president of the association
thinks that all his interest should
cease when he got his kinsman
appointed as inspector at a good
salary I think different but let
us hope that from this evil that
we will be saved from a greater.

As Mr. Smith makes pretensions
to our representation in Ottawa
he has shown by this careless
neglect how incapable he would
be at filling such a position of
honor and trust. As I see that
our worthy members of the
legislature J. T. Moore has taken
it in hand I have no doubts we
will have it settled as he never
gives up until he has things
satisfactorily settled. I would
suggest to strengthen the hands
of J. T. Moore that the other Red
Deer reform association of which
Mr. John McVicar is President
step in and win laurels by
assisting a settlement of this dis-
graceful business.

PLAIN TALK FROM THE DOCTOR

A prominent physician, famous for
his success in the treatment of kid-
ney and bladder troubles, stated that
to the following prescription is due a
great deal of his success:

One ounce fluid extract dande-
lion

One ounce compound salutar-
ia

Four ounces compound syrup

Mix and take a teaspoonful after
meals and at bedtime, drinking
plenty of water.

This mixture will, he says, posi-
tively cure any diseases arising from
weak, clogged or inactive kidneys,
and will assist these organs to
cleanse the blood of the poisonous
waste matter and acids, which if
allowed to remain, cause lumbago,
rheumatism, and sciatica, and
at the same time will restore the
kidneys to healthy normal action.
The ingredients, which are purely
vegetable and entirely harmless, can
be procured from any good druggist
and mixed at home at very little cost.

This advice will undoubtedly be
much appreciated by many readers.

K. M. BYERS
MANAGER RED DEER YARD

Local and General

Miss Hamilton, of Toronto, is the guest of Mrs. Dr. Parsons.

Miss Nash has been the guest of Miss Ella Stent, for the past week or two.

The Great West Lumber Company expect their second drive of logs this week.

Miss McKinnon, of Edmonton, was the guest of Mrs. John Malcolm over the holiday.

TO RENT—A nine room house corner of Nanton and McLeod St. Apply to W. H. Heighon.

The cheapest and choicest preserving fruits at Hill & Horn's, get yours quick before it is all picked over.

A traction engine on the road by Judge Biggs' farm should be removed as it is almost impossible to get some horses to pass it.

We are indebted to John McVicar for a first copy of the Empire, the new paper started at Prince Rupert, British Columbia.

Mr. C. F. Stent, who has been relieving at Sedgewick, is now relieving at Maple Creek and will then probably be permanently located at Olds.

Sam Lee has returned from his trip to China, and is renewing old acquaintances. He says Red Deer has grown considerably since he left last year.

Jim Gaetz was in town on Monday. He says they had green corn out at the ranch on Saturday. It was picked the day before the frost.

Will the party who was enquiring of the brand inspector Red Deer as to owner of brand E2 write R. E. Parker, Pine Lake P. O. re steers he wintered.

Rev. W. G. W. Fortune has moved from the Smith & Gaetz block to one of Mrs. Baird's new residences a few doors east of the Presbyterian church.

A meeting of St. Luke's vestry will be held this evening to discuss the question of selecting a new rector. The Ladies' Guild will also hold a meeting in the vestry.

Call in and see the display of fruit at Hill & Horn's.

Pixley & Crocker, the Pine Lake ranchers, who recently made a shipment of a train load of cattle to Chicago have received returns and are well pleased we understand with the financial end of the deal. Between four and five thousand dollars were realized for the stock.

A mercantile collecting agency has been established in town by Pidgeon & Wallace, the real estate men. D. E. Miller, will act as collector. There should be an opening for such a business and we wish the firm success in their venture.

A mothers' meeting of W.C.T.U. will be held at Mrs. Kirks, Friday afternoon next, the 6th of September at 3 o'clock. A good programme is prepared on the subject of "Purity." A cordial invitation is extended to all mothers of the town who can meet with the association and help along the good work.

Mrs. W. L. Macdonald of Millet, is the guest of Mrs. Gordon Armstrong.

Born in Red Deer, Aug. 27th, to Dr. and Mrs. George, a son.

Mrs. R. A. Robertson, of Edmonton, is visiting her parents, Mr. and Mrs. Geo. Wright.

J. H. Bennett wants to take a number of milk cows on shares. Word can be left at the News Office.

Hill & Horn have just received a car load of preserving fruits, consisting of plums, pears, peaches, crab apples, apples, etc.

Deep sympathy is extended to Mr. R. B. Beacock, of the post-office staff, on the sudden death of his mother which occurred in Cartwright, Ont., on Aug. 23rd last.

J. H. Wright, who sold his ranch and took up his residence with his family in Red Deer some time ago, intends taking a trip of several months duration to either Ontario or B. C. in the near future.

D. M. Sanson, manager of the Canadian Bank of Commerce, has been transferred to Dawson City, and he leaves to-morrow to take charge. Mr. Sanson's many friends will be sorry to learn of his removal from town.

McDougall and Martin have their drive of logs down the Medicine river to Markerville and expect to commence sawing at their mill in a few days. The estimated quantity of lumber in the drive is 500,000 feet.

William and Harry Reay shipped to Winnipeg yesterday a car of fat cows and heifers. Harry accompanied the car. This will be a sample shipment and if successful the boys will have several hundred more to follow.

W. Bannerman and Dol. Beaman, of the Alberta, leave to-day for a trip east until they strike the G. T. P. near Manitou Lake when they will return by the line to Edmonton. They will be gone about ten days or two weeks.

At a meeting of the Red Deer Exhibition association recently it was decided to hold the fall fair on Thursday October 10th, when prizes to the extent of \$425 will be offered for grains, grasses, poultry, roots, vegetables, dairy and domestic produce etc. Keep this date in mind.

Mrs. A. J. Davidson, who was visiting Mr. Robert Thompson in town last month, and who returned to her home in south western Nebraska two weeks ago, writes that the entire corn crop of that section of the country is destroyed owing to the prolonged drought. We may have a little frost occasionally but our feed is left and on it depends the life of our live stock. Mr. Thompson says the land in that section of Nebraska is 80 to 100 dollars an acre, and it can't begin to compare with this country in his opinion. He thinks our lands will soon be worth \$50 an acre.

Cattle Market

The following report has been received from Bowles Live Stock Commission Company Chicago, Ill.:

Arrivals of grass cattle from the Northwest were heavy and the light again this week and the market is closing fully 25c higher. A standard brand of Dakota Texas sold here yesterday

at \$4.90 against \$4.65 on Tuesday. Some 1305 Montana natives brought \$3.75 the fore part of the week, a good fat, strong weight lot of Canadian grass cattle would sell readily around \$8.00 here at present, averaging 1350 to 1400 lbs.

There were 9 loads of Canadian cattle here this week from near Red Deer, Alberta. They were a mixed lot of two and three year old steers and cows. The steers sold for feeders at \$4.40 to 4.60. The market is plentifully supplied with this kind of cattle but there is a marked scarcity of fat grass steers averaging from 1250 to 1400 lbs. and this kind we believe can be shipped from the Canadian Northwest to Chicago to good advantage this season. We advise against shipping light weight killing steers and feeders. Good thick fat cows and heifers are good sellers.

Through a blunder on the part of the railroad company two loads of the Canadian cattle that were here this week were reloaded into wrong cars at a feed station while in transit to Chicago and the cattle arrived here mixed, but fortunately the owners were here and sorted them out.

A liberal number of medium range steers sold this week at \$5.25 and 5.50.

Penhold.

Miss Eva Stewart who has been spending her holidays with her mother, returned to Winnipeg last week.

Miss Stevens of London Ont. is visiting Mrs. Stewart.

Miss Hives returned to the Industrial School, Thursday last, after spending a short holiday with her parents.

Chas. Wilson returned from the coast on Friday last. He is looking very fit and reports having had a fine trip.

H. C. Newland has purchased the building now occupied by J. Walker for a butcher's shop.

The returns of the Dominion Rifle League have been received by the Sec. Penhold occupies a place about half way down on the list, which considering the bad weather is not too bad.

John Greening reports having seen no frost on the farm yet. He says he has not had time to wheat and he took first prize for Spring wheat at Red Deer last winter.

The Rev. W. Whitehead was through visiting last week. Mr. Whitehead comes from Manchester, England, and is very favorably impressed with the country. He preached a large congregation on Sunday.

The grain elevator is completed and shortly we presume will be open to take in grain.

Leslieville.

Mr. Geo. Matley shot a big lynx here last Tuesday. He was going after his cows and came upon the animal in the grass. He headed it off once or twice and cornered it and then went in haste to borrow a gun from Mr. West whose house was the nearest. When he arrived, breathless and excited, Mrs. West was quite alarmed and hesitated to lend him the gun as the red fire of murder was in his eye. However he explained, secured the gun, and shot the lynx and returned dragging the beast which they claim was close on 6 ft in length, though in poor condition.

Coyotes have been very much in evidence during the last week making the night musical with their weird cries. Is it the full moon that calls for this harmony? We have heard of dogs baying at the moon.

Ranchers here are greatly disappointed at the wretched weather for haying. Many are still postponing cutting grass hoping for more suitable weather.

Poultry Fattening.

RULES AND REGULATIONS GOVERNING THE CO-OPERATIVE POULTRY FATTENING STATIONS

1. The poultry must be delivered alive and free of charge at the fattening stations at such times as may be required by the Poultry Superintendent or the Managers respectively in charge of said stations.

2. Chickens are birds weighing from 3 1/2 to 4 lbs. each.

3. In no case will crippled, deformed, diseased, sick, or cock birds be accepted.

4. The crop of all birds must be empty when received at the station and before being weighed. (This is most easily obtained by cooping the birds the evening previous to delivery.)

5. Should any person fail to comply with Rule 4, the Manager of the Station shall deduct one-quarter of the per bird or refuse them entirely as he may decide.

6. Fowl will be accepted at the station only at such times as the Poultry Superintendent or Manager in charge may arrange.

7. Poultry must be brought to the station in suitable crates to avoid overcrowding and smothering which often makes the chicken unfit for fattening purposes and in a number of cases deaths have resulted from lack of proper means of transportation. Coops must be framed with lath one and one-half inches apart to free circulation of air to the chickens.

Dissolution of Partnership.

NOTICE is given that the partnership heretofore existing between A. D. Beaman, and Thos. Millan, under the name of Coal-smith store, is hereby dissolved by mutual consent. Mr. Millan will assume all liabilities of the firm.

Farmers!

We are again obliged to ask for your co-operation. It's easily given, and costs nothing. It's simply this: You have ordered a Binder from us; you know you will require that Binder, then why not call for same as soon as possible, in order that we may help you set it up. We cannot be all over the district at once. There is no need to wait until your crop is ripe, for we will demonstrate the running of our Binders in the heaviest green grain you can produce. So why not take delivery of your Binder the first day you are unable to go on the hay field; it will not cost you one dollar more, but it will give us a chance to set it up for you before the fall rush. Just figure this out, and you will admit that it's only reasonable that we cannot set up the large number of Binders sold by us in the last week preceding harvest.

Thanking you in anticipation of your hearty co-operation in this matter,

Latimer & Botterill,
